

The National Association of Broadcasters (NAB), the organization that represents the large radio and television owners, is using its lobbyists, campaign contributions and political influence to have Congress and the Federal Communications Commission limit XM's ability to provide you with "locally oriented" content, including the new XM Instant Traffic & Weather channels. I should be able to receive anything I want to pay for?

The xm raider is easy and quick and i don't have to wade through a lot of other information to get the weather or traffic report I get it now not after the 4 to 5 ads and I wait 6 to 10 min.

Please listen to the consumer not the NAB we pay for it they don't.
